

SECTION 6

6.25 METER YOKES (LINE SETTERS):

A yoke is a metal pipe frame attached to the inlet and outlet sides of the meter providing support, and conveying water to the meter. Meter yokes shall conform to MS-21.

To assure safety, the water meter setting shall provide a continuous, electrically conductive, path around the water meter. If a bonding jumper is required, it shall be made of copper with fittings suitable for the bonding jumper and the water pipe material. The meter setting installation shall be in compliance with the National Electric Code.
